Mayor Kaske explained how part of the sidewalk was put in because an outside company installed a fiber optics duct system in that area and how a grant had been applied for 233rd and 35th Avenues but the grant had not been approved. Sue Kernodle, 23321 35th Avenue W., asked if the sidewalks would be done in 2001 or in 2002 and discussion followed about the possibility of doing it in phases. Bev Hennum, 24083 34th Place W., expressed concern that the children are not able to ride a bus because they are so close to the school that Edmonds School District does not provide bus service for them, so there is no choice for them and that she hopes the sidewalks would be a high priority. A gentleman in the audience asked for sidewalks directly in front of the school on the west side of the street. There was audience

discussion with Council. Marilee Collins, 2680 Elm Drive, asked if anyone of the Council had been there as the kids come out like bees from a hive and children are monitoring children as crossing guards and she stated that there were enrollment issues with the number of children attending the school. Bev Hennum asked about resubmitting the grant application and asked that the fact that it involves an elementary school be included in the application. Darlin Phraner, 3612 233rd Place SW, drew a picture on how she takes her child to school and showed the areas that she felt needed sidewalks even if it takes a bond issue. Debbie Furman asked if the Edmonds School District had any financial responsibility regarding sidewalks as it is a school issue. Angie Acheson, Brier Road and 230th, stated there should be adult supervision at intersections. Sue Kernodle stated the Brier Police sit in her driveway and try to help and she wants the Police to stay on 233rd. Janet Alley, 23224 34th Avenue W. asked if they were going to have sidewalks in 2002 and stated she is confused as to when it would be done and if there was money.
